

Briar Creek Sewer Improvement Project: New Dates for Road Closure and Detour

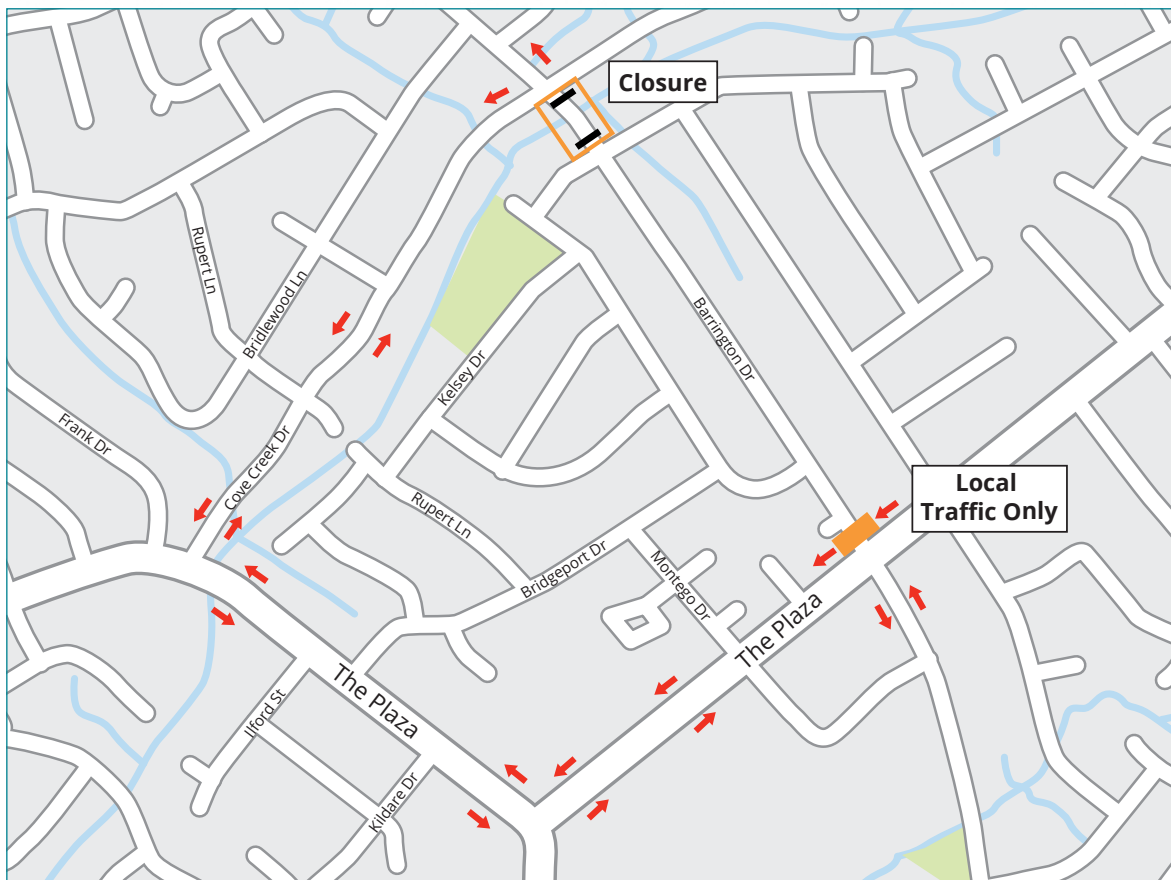

WHAT: Sanders Utility Construction Co., under Charlotte Water's supervision, will be temporarily closing a section of Barrington Drive to complete pipe installation for the Briar Creek Sewer Improvement Project. Detour signs will direct traffic around the construction using alternate roads (see map and details). Only local traffic will be allowed on Barrington Drive north, outside of the construction zone. Access to all residences in the area will be maintained throughout construction.

WHERE: Barrington Drive in between Covecreek and Somersworth drives. Both lanes and the sidewalks will be closed. Barrington Drive at The Plaza will be closed to thru traffic.

WHEN: The road will close on **Monday, June 18, with expected reopening on Monday, June 25.**

Please note these dates have changed from the schedule outlined in the previous communication.

DETOUR DETAILS: Motorists should use Covecreek Drive and The Plaza for detouring around the closure. This closure does affect CATS bus stops along Barrington Drive. Weather and unforeseen circumstances occasionally prevent work from being completed as scheduled, and make it unsafe to open streets when originally planned. If this occurs, City traffic engineers work directly with other City staff and contractors to resolve the situation as quickly as possible to reduce impacts to the area residents and motorists.

QUESTIONS: Please visit the project website at www.charlottewater.org (click on "projects") for updates. If you have a question or would like to receive email updates, please contact Amanda DeWeese, briarcreek@chernoffnewman.com, or 704-374-9300, ext. 2237.
